Mfr Part No. MD094LL/A

The 21.5" iMac Desktop Computer from Apple is an all-in-one desktop computer with an ultra-slim unibody design. The widescreen display features LED backlighting for vibrant, accurate color. With in-plane switching (IPS) technology, the iMac has a wide 178° viewing angle. The screen has a 16:9 aspect ratio and Full HD 1920 x 1080 native resolution, supported by an nVIDIA GeForce GT 650M graphics card with 512MB discrete GDDR5 memory.

The iMac features a quad-core Ivy Bridge 2.9GHz Intel Core i5 processor. The system also has 8GB of 1600MHz DDR3 RAM, a 1TB 5400rpm hard drive, 10/100/1000Mbps Gigabit Ethernet, 802.11a/b/g/n Wi-Fi, a 720p FaceTime HD camera, dual microphones and built-in stereo speakers.

For ports, the iMac has dual Thunderbolt ports (which also double as Mini DisplayPorts) and four USB 3.0 ports. You'll be able to connect with various compatible components. If you would rather go wireless with your peripherals, you can use Bluetooth 4.0 technology where compatible.
